Parquet & Vinyl Flooring

Category: Wooden parquet
Vinyl flooring
Interior floor covering
Natural / designed flooring

Origin: Germany, China

We offer architects & interior designers a huge variety of quality flooring out of vinyl designs and natural wood. The products have very high standards and are suitable for installations in the commercial sector like hotels, office buildings, and shopping malls and in the private sector like villas and apartments.

PRODUCT INFORMATION

- **WOODEN PARQUET**

Most of the below-listed woods are also available as massive floorboards, strip parquet mosaic parquet or industrial parquet on request. All our exotic woods originate from sustainable forest management and are manufactured in FSC-certified production facilities. These woods change their appearance, depending on the growing region and the soil conditions.

- Canadian maple natural oiled/varnished
- Black cherry natural oiled/varnished
- Cumaru selected - natural oiled/varnished
- Doussie selected natural oiled/varnished
- Jatoba selected natural oiled/varnished
- Mahagoni Sapeli selected natural oiled/varnished

- Mutenye selected natural oiled/varnished
- Walnut American natural oiled/varnished
- Sucupira Preta selected natural oiled/varnished
- Tigerwood selected natural raw
- Wenge selected natural oiled/varnished
- Yvyro selected natural oiled/varnished

- **VINYL FLOORING**

With their authentic-looking surface and their diversity of variants, our vinyl floorings are harmoniously coordinated with today's furnishing worlds. All our design floorings are TÜV Proficient Premium quality-tested and certified and thus meet the strictest emission requirements for these products, even those of the new EN standard for health protection DIN EN 16516. Our flooring has a 15-year guarantee in the private sector and a 10-year guarantee in the commercial sector according to our guarantee declarations.

PROPERTIES

Healthy living: Our design floorings are low-emission, phthalate-free products tested by the EP in Germany. They are perfectly suitable for premises of various classifications, in particular for households with children and pets. Hygienically safe in doctors' surgeries, homes for elderly people, schools, locations, hotels, kindergartens nursing and rehabilitation facilities.

Comfortable: Our design floorings have been classified as warm underfoot, gentle to the joints and the back, anti-slip according to DIN 51130 R10 and provide a comfortable walking experience. The high-quality materials reduce room and impact sound.

Easy to maintain: Due to the additional double surface ceramic sealing, dirt hardly has a chance. Unlike on carpets, house dust mites do not accumulate on the vinyl floorings.

Extremely durable: Our design floorings are durable, cost-conscious and can be laid on a warm-water floor heating up to 28°C.

They are suitable for the high-usage private sector and the commercial sector according to their classification.

100% waterproof: Due to their water resistance, our design floorings are suitable for kitchens and bathrooms, even snow and mud are no problem.

Installation: With an installation height of only 2.5+5 mm, these design floorings are an optimum solution for renovation work. The variants requiring adhesives can be additionally laid in a floating manner. The variants requiring adhesives should be laid by profession.

VINYL FLOORING

OUR PRODUCTS EXCEED THE TECHNICAL QUALITY REQUIREMENTS

Our vinyl floors are harmoniously matched to today's furnishing worlds with authentic-looking surfaces in their variety. The innovative designs and decors follow comfort levels. All our design coverings are TÜV certified and DIN EN 16516 quality-tested.

Wallpapers

Category: Granite
Glass beads
Textured
Flock

Origin: Germany

We can do this because of a wide range of techniques and updated machines which can be individually converted at any time based on our customers' requests. Sustainable and free of PVC, solvents and softeners – for a healthy atmosphere at your home. That is our standard.

WALLPAPER WITH REAL GLASS BEADS

In our products, we never use plastic beads on our wallpapers. Only high-quality real glass beads glitter and shine, conjuring up unique reflections on your wall. Plain or patterned – our wallpapers are healthy and sustainable. Created with craftsmanship and attention to detail.

TEXTURED WALLPAPER

Textures, reliefs and three-dimensional effects are created when wallpapers are designed and printed in several layers. That's what we do, playing with colours, foam and glitter effects.

FLOCK WALLPAPER WITH SOFT VELOUR

Our flock wallpapers have a soft, velvety feel. The applied textile fibre creates a 3-dimensional structure. Patterns and decors stand out vividly against the background.

COLLECTIONS

Tropical

WALLPAPER WITH REAL GRANITE

Granite is a natural product, characteristic of the region where our wallpapers are made. Finely ground and applied to the wall, it creates a unique and delightful ambience.
