About GTV Global

GTV Global connects professionals in the UAE and GCC with high-quality, design-driven products from trusted international manufacturers.

Headquartered in Dubai, we work closely with architects, developers, and contractors to supply reliable, innovative solutions tailored to the demands of today's projects.

With a focus on distribution, specification support, and regional expertise, we represent leading brands from Europe, Asia, and the USA. Our team provides end-to-end assistance - from product selection to logistics - ensuring seamless integration into your project timeline.

We don't just supply products - we support your vision with technical knowledge, responsive service, and a curated portfolio that combines performance, sustainability, and design excellence.

Product Divisions

Our offering is built on strategic partnerships and a carefully selected range of products backed by market insight and feasibility. We supply premium solutions across five core divisions:

- Laminates & Boards - Durable, high-performance surfaces for modern interiors.
- Floor & Wall Coverings - Stylish, functional materials that elevate any space.
- Furniture - Elegant, practical designs for residential and commercial use.
- Fit out - Comprehensive products for bespoke interior & architectural needs.
- Windows, Doors & Gates - Precision-engineered for security, energy efficiency, and aesthetics.

Every product we offer meets rigorous quality standards and is chosen to support inspiring, long-lasting design.

Laminates & Boards

We offer a curated selection of high-quality materials for interior surfaces:

- High Pressure Laminates and Ace Surfaces – Durable and versatile finishes for everyday use
- Birch Veneers – Natural wood aesthetic with a refined look
- Wooden edge bands – Seamless detailing for a polished finish
- Internal doors – Designed to complement modern interior schemes

Ideal for both residential and commercial projects, these products combine performance and design to support the creation of functional, long-lasting spaces.

High Pressure Laminates (HPL)

These high-pressure laminate (HPL) surfaces combine exceptional durability with sophisticated design, making them ideal for a wide variety of interior and architectural uses.

Engineered to withstand scratches, impact, moisture, and heat, they maintain their vibrant appearance and structural integrity even in the most demanding environments. Available in a broad spectrum of textures, finishes, and patterns - including realistic wood grains, stone effects, and contemporary designs - these surfaces offer versatile solutions for furniture, wall panels, cabinetry, countertops, doors, and more.

Their resistance to wear and ease of maintenance make them perfectly suited for commercial spaces, hospitality, healthcare, and residential projects alike. Designed with sustainability in mind, these laminates provide a reliable, stylish, and environmentally conscious choice for creative and lasting interior applications.

Woodgrains

Stones

Fabrics

Solid Colors

Pearl Lustre

Metallic

Texture

Woodgrains

Featuring realistic wood textures and rich, natural patterns, these finishes offer both aesthetic appeal and exceptional durability.

Ideal for furniture, cabinetry, wall panels, and other interior applications, it combines the beauty of wood with the resilience of laminate, ensuring long-lasting, low-maintenance surfaces for both residential and commercial spaces.

Varieties: Oak, Walnut, Cherry, Maple, Fir Wood, Ash, Pear, Chevron, Blackwood, Teak, Strand Wood, Elm, Fiber Wood, Compiled Wood, Beech, Arrowwood, Bamboo, Willow, Pine Wood, Birch

Stones

Our HPL Stone finishes capture the luxurious and sophisticated look of natural stone, offering a stunning range of textures and patterns.

These laminates mimic the intricate details of marble, granite, and other stone surfaces, providing a high-quality alternative that is both durable and easy to maintain.

Fabrics

Our HPL Fabric finishes offer the soft, tactile appeal of fabric with the durability and ease of maintenance of high-pressure laminate.

These finishes feature intricate textures that mimic woven fabrics, creating a sophisticated and cozy aesthetic.

Solid Colors

These high-pressure laminates feature bold, uniform finishes in a wide range of vibrant and timeless shades. Scratch-resistant and color-stable, they're ideal for furniture, cabinetry, and interior surfaces - a durable, low-maintenance solution for both modern and classic designs.

Pearl Lustre

Our Pearl Lustre finishes offer a refined, elegant surface with a soft, pearlescent sheen.

These laminates combine a luxurious, high-gloss appearance with exceptional durability, making them ideal for creating sophisticated interiors

Metallic

Metallic HPL finishes offer a sleek, reflective surface that brings a modern, sophisticated look to interiors.

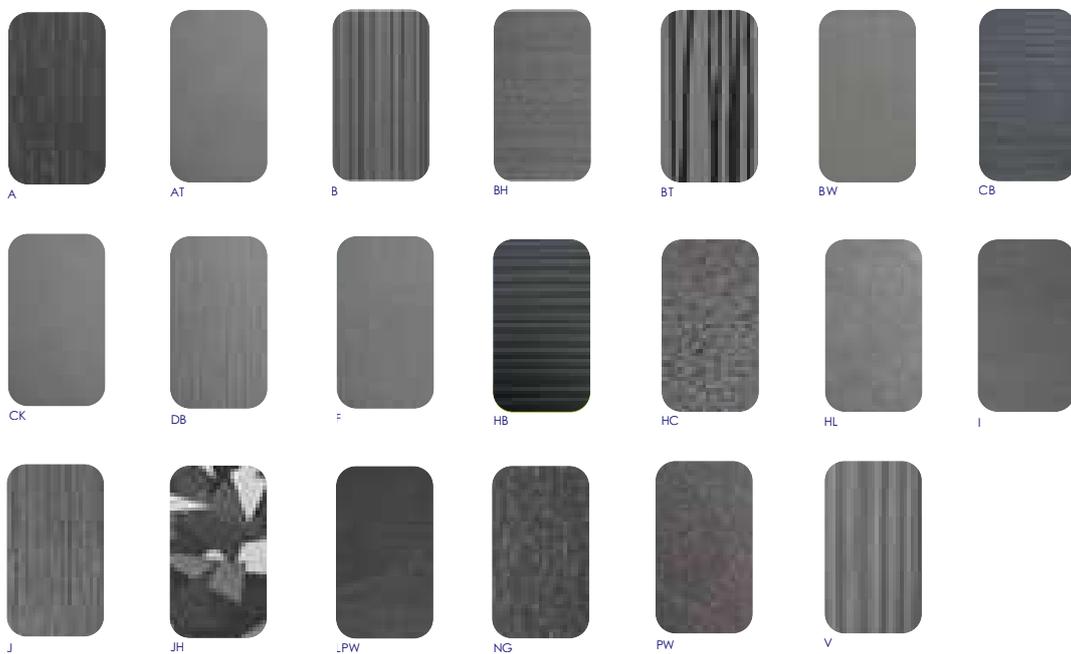

Designed for furniture, accent walls, and decorative elements, they combine the visual appeal of polished metal with durability against scratches, impacts, and stains.

HPL Textures

Create the exact surface you envision. Our HPL textures can be specified in any pattern, colour, gloss level, and embossing depth to suit your project's aesthetic and functional requirements.

Each sheet delivers the durability expected of premium laminate - resisting scratches, impacts, and stains - while giving you full freedom to define the look and feel that best complements your interior scheme.

Ace Surface - HPL

Specializing in durable and decorative high-pressure laminate (HPL) surfaces, this material combines aesthetic appeal with exceptional performance and versatility.

Designed to meet the demands of both residential and commercial spaces, these surfaces offer resistance to scratches, impact, heat, and moisture while maintaining their vibrant color and texture over time. With an extensive range of finishes and patterns - from woodgrains and stones to abstract designs - they allow for endless creative possibilities in furniture, wall panels, partitions, doors, and more.

The material is easy to clean, hygienic, and built to withstand intensive use, making it an ideal choice for environments such as offices, retail spaces, hospitality, healthcare, and education. Expertly engineered, these HPL surfaces enable designers and architects to bring durable, stylish, and functional solutions to any interior.

Birch Veneer

Specializing in innovative surfaces crafted from refined birch bark - known as Betula veneer - this material offers a remarkable combination of natural beauty, high functionality, and 3D malleability.

The surfaces are renewable and sustainably sourced, showcasing the unique textures and depth of color only nature can create. Designed to be water-repellent, soft to the touch, easy to maintain, and naturally antimicrobial, they are ideal for a wide range of applications.

From furniture, wall cladding, and flooring to handles, spa interiors, bathrooms, yachts, and even outdoor decking, these surfaces bring durability and elegance to both residential and commercial environments.

Expert production techniques preserve the integrity and versatility of the birch bark, enabling designers and architects to create interiors that are not only visually striking but also sustainable and thoughtfully crafted.

Betula Veneer

Betula Flooring

Betula Wall

Other Applications

Wite Nature

Betula Veneer

Betula veneer is a sensory experience - its subtle surface structure and velvety-soft texture are especially striking to the touch.

With water-repellent and non-slip properties, it offers versatile design possibilities across a wide range of applications.

Ranges:

Laminated on non-woven fabric:

Laminated on temporary film:

With an aluminum core:

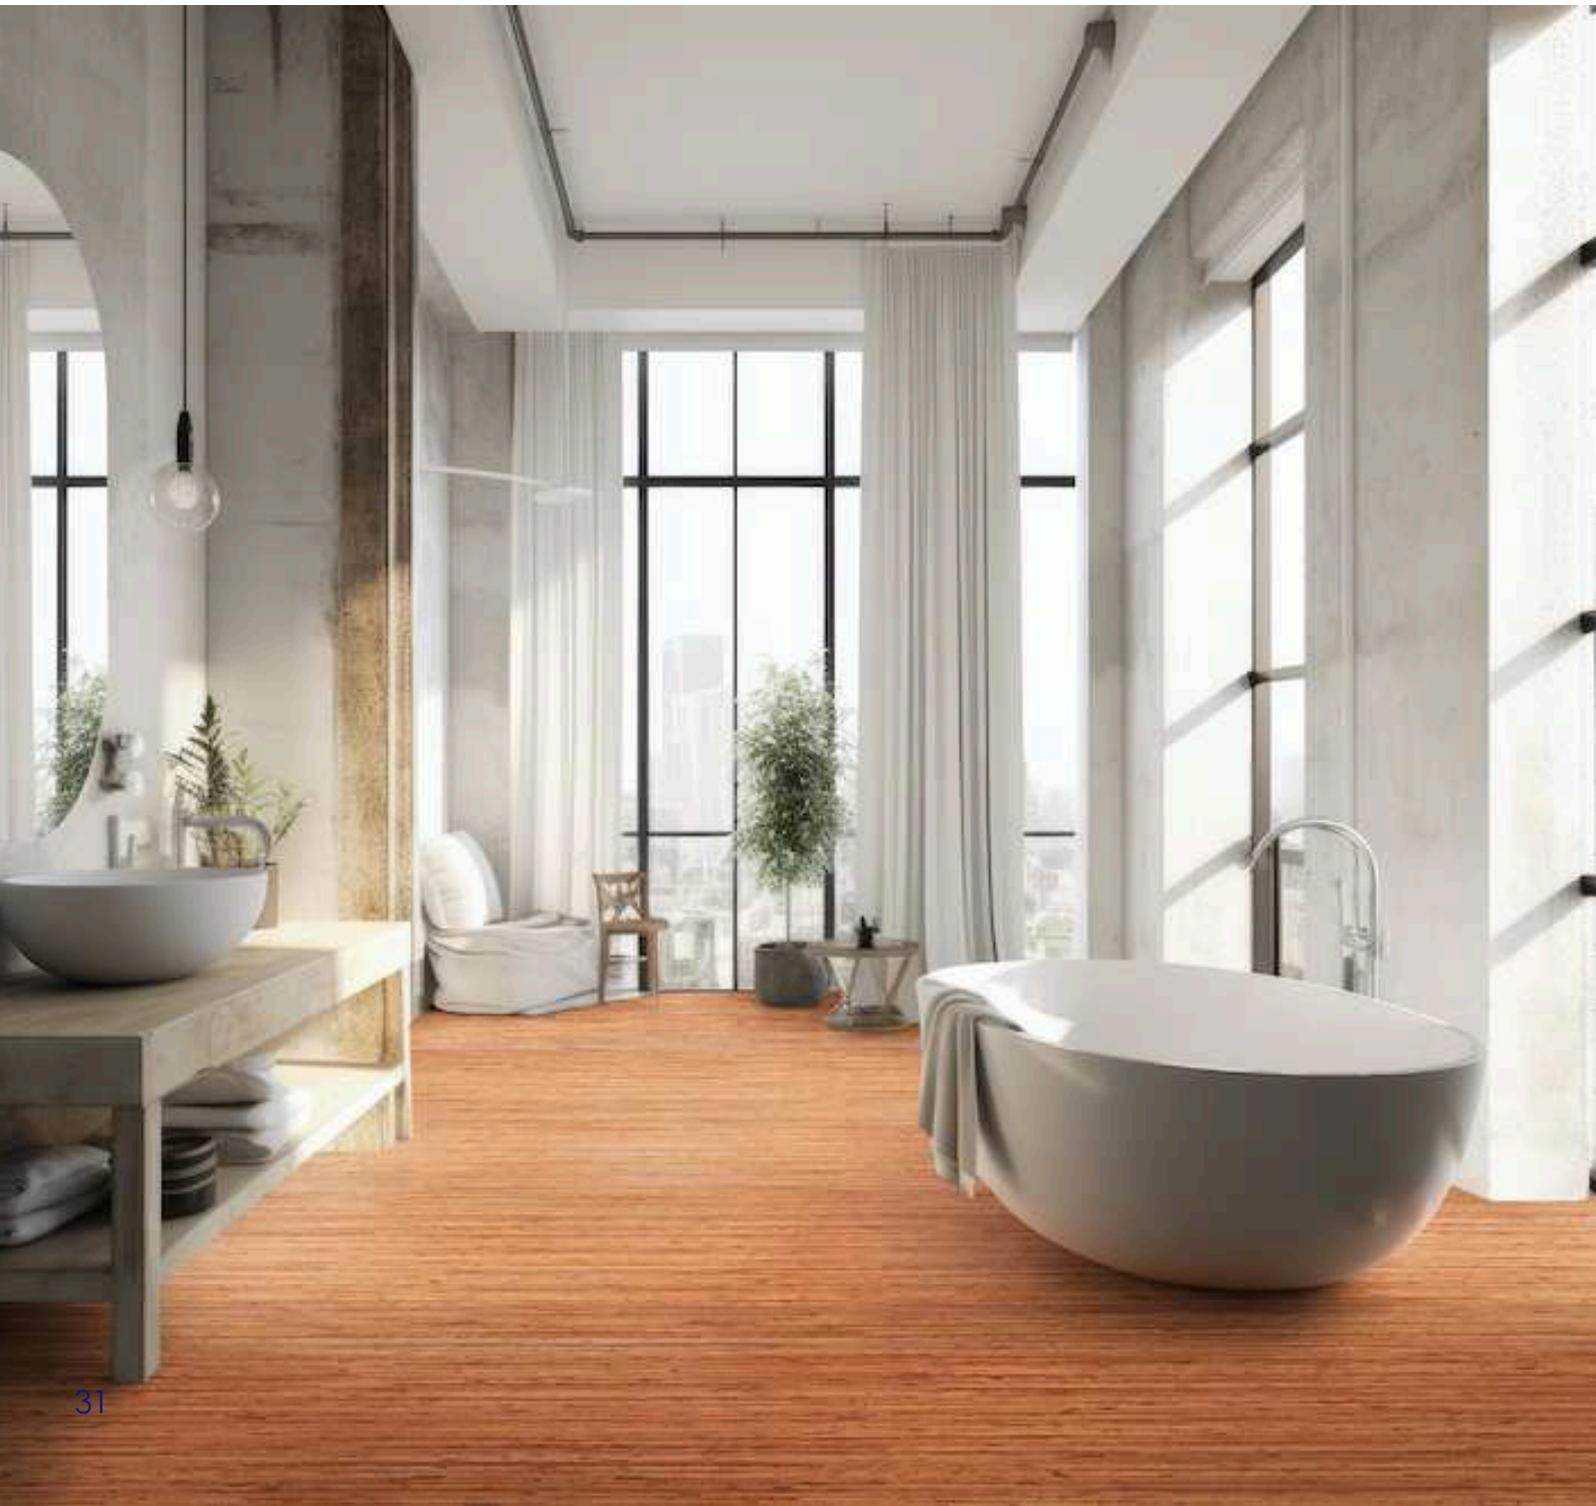

Solid bark block:

Betula Flooring

Our betula flooring is a sophisticated birch bark flooring that's ideal for bathrooms and spa interiors, as well as yacht interiors.

This natural material thrives on contact with water and human skin – birch bark doesn't swell and is therefore, unlike wood, ideal for direct contact with water.

Ranges:

Betula flooring on straw board support

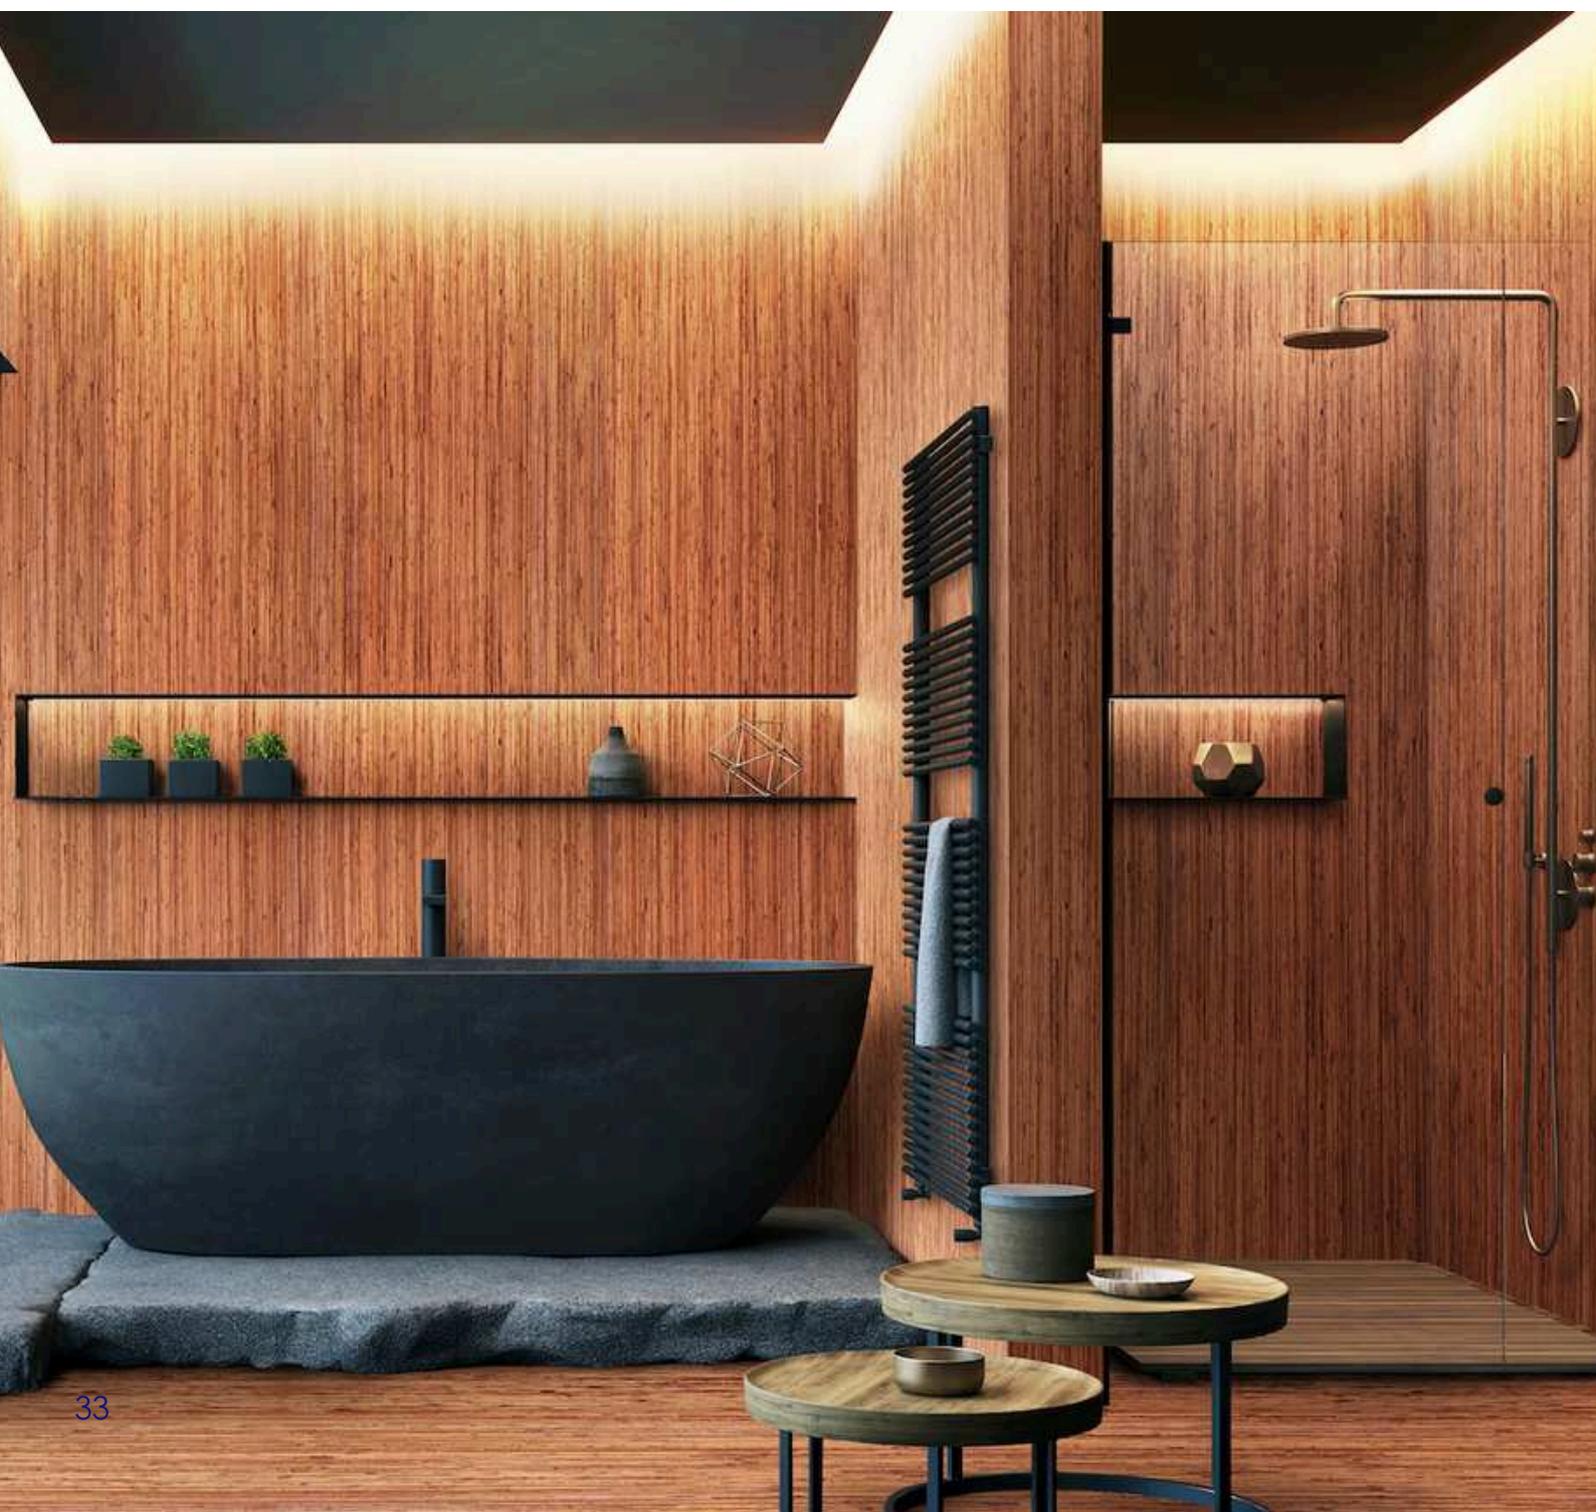

On SPC substrate, 5G click system

Betula Wall

Our betula wall brings the natural material to bathroom walls, spa areas, and yacht interiors in a user-friendly way.

Thanks to its water-friendly properties, there's now a wood-like material that performs at its best in wet and humid conditions.

Ranges:

Betula wall on straw board support:

On SPC substrate, 5G click system

Betula wall on aluminum honeycomb support:

Other Applications

Beyond furniture, our creations find expression in unexpected places - walls, counters, ceilings, and spatial dividers. Each piece is designed to integrate seamlessly into its environment while standing out as a visual focal point.

These one-of-a-kind applications are shaped by close collaboration with architects and designers, transforming surfaces into statements and materials into stories.

Counter Tops, Wash basins, Door Handles, Chairs and Lounge chairs, Shaving razors,

White Nature

This Collection offers unique pieces crafted from high-quality Nordic birch bark, preserving its natural look and structure.

The malleable bark is applied with the white side facing out, showcasing the classic black-and-white graphic pattern. It's an easy way to bring the lightness and airy feel of a birch forest into any space.

Veneer Edge Band

Our veneer edge bands bring the warmth and character of real wood to your projects, offering a natural finish that enhances the look and feel of furniture and interiors. Each strip is meticulously crafted to ensure a seamless transition between surfaces, adding both elegance and consistency to your designs.

Ideal for a wide range of applications, these edge bands combine durability with flexibility. Whether you're working with curved elements or straight edges, they provide a refined solution that complements high-quality craftsmanship and modern manufacturing needs.

The Curve

PUR Lamination

Thin Veneer Edging

Thick Veneer Edging

End-grain Edging

3D Structured

Cross Veneer Edging

Wrapping Veneer

The Curve

Perfect for application at the limit.

Special features:

- Multi-layered thick veneer edging engineered for tight radius applications
- Special structure allows single-pass processing on CNC machines (e.g. radius 20)
- Reduces cycle times and improves processing efficiency
- Optimized for edge covering on small-radius workpieces
- Ideal for high-demand, precision-focused applications

PUR Lamination

For application in specialty areas. PUR lamination uses advanced PUR technology for modern composite systems

Key applications: profile wrapping and edge banding

Advantages:

- Excellent water resistance
- High bond strength
- Superior flexibility for wrapping and cold conditions
- High temperature and chemical resistance

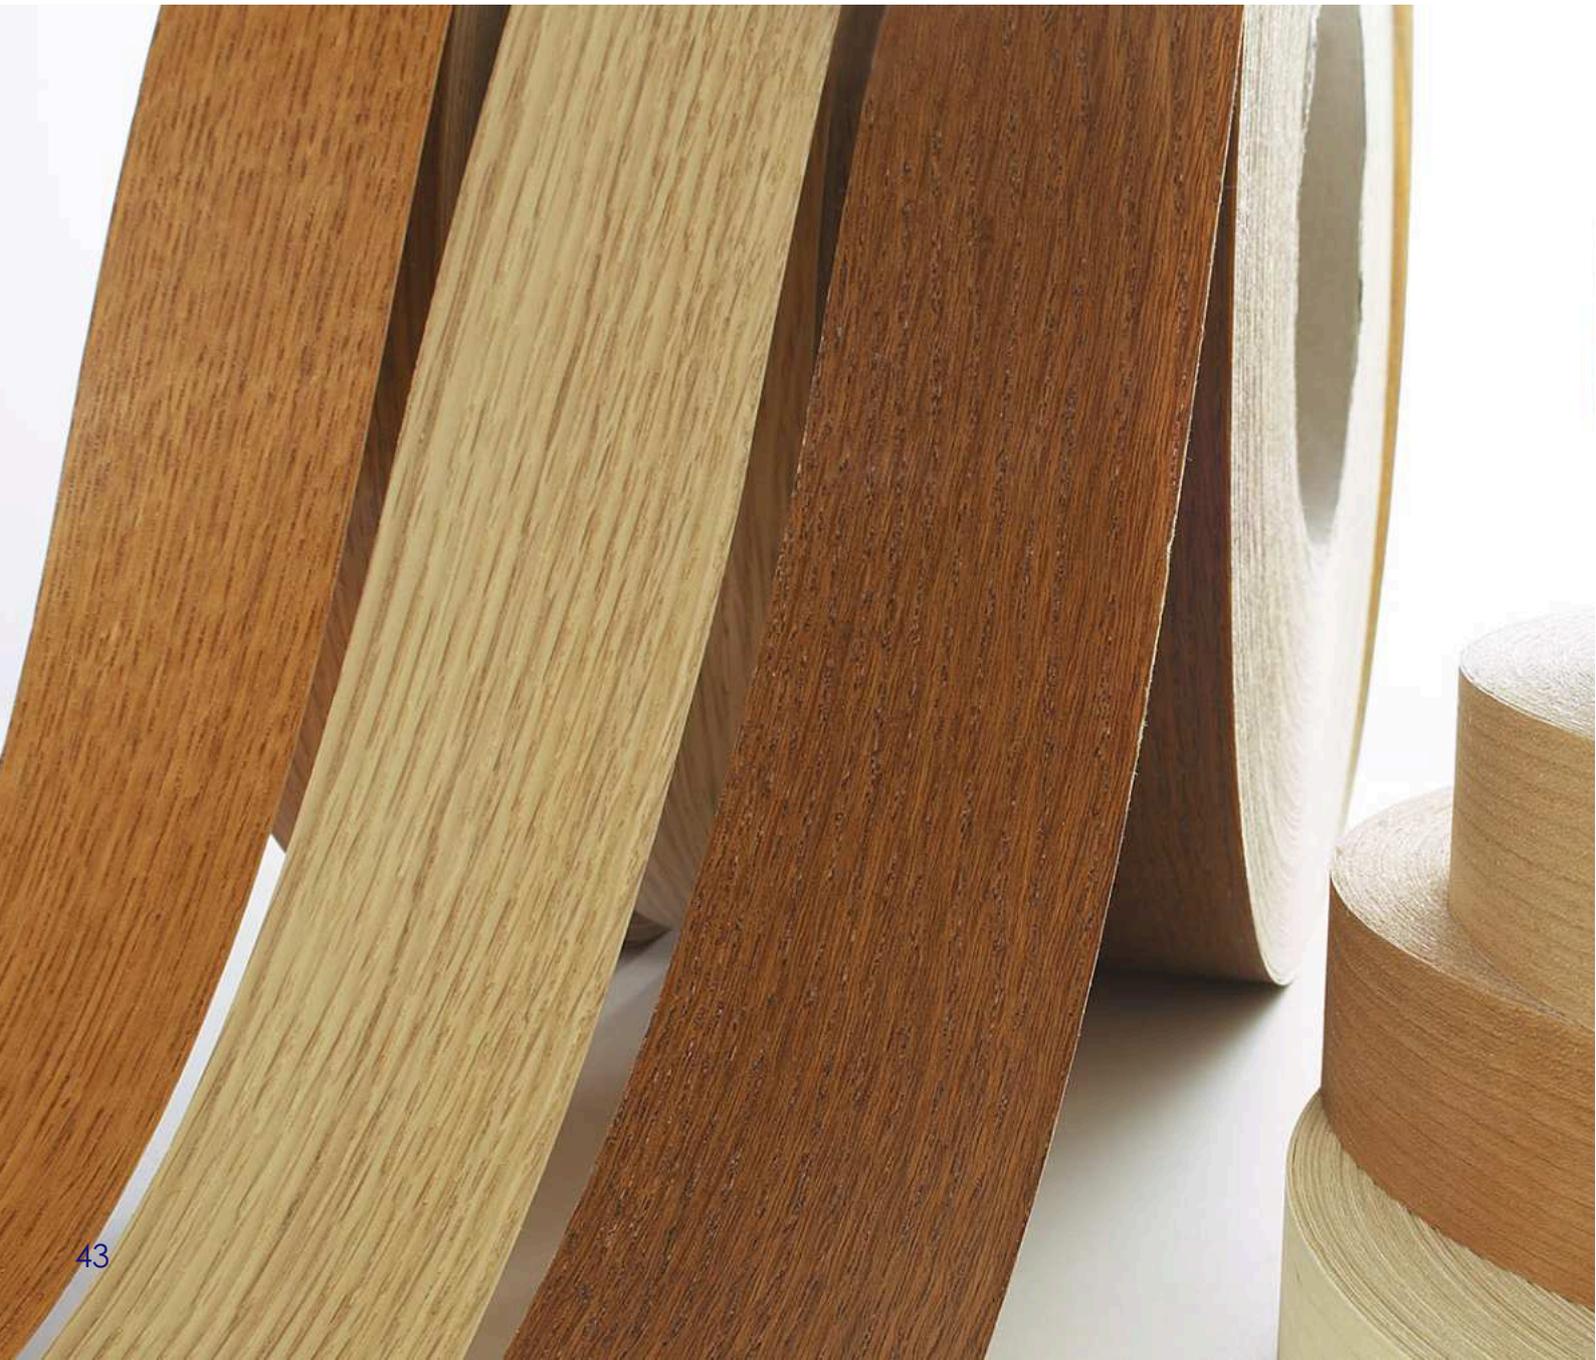

Thin Veneer Edging

The classic in our extensive product range. A wide variety of finishing options enable an exact adjustment to your production parameters.

Types of finishing:

- Fleece
- PUR fleece
- Hot melt adhesive pre-coating
- SSK splitter protection coating
- Surface sanded
- Calibration sanding to 0.30 mm
- Brushed/textured surfaces
- UV lacquering for straight edges
- Hydro-UV for flexible edges
- Adjustable colour & gloss

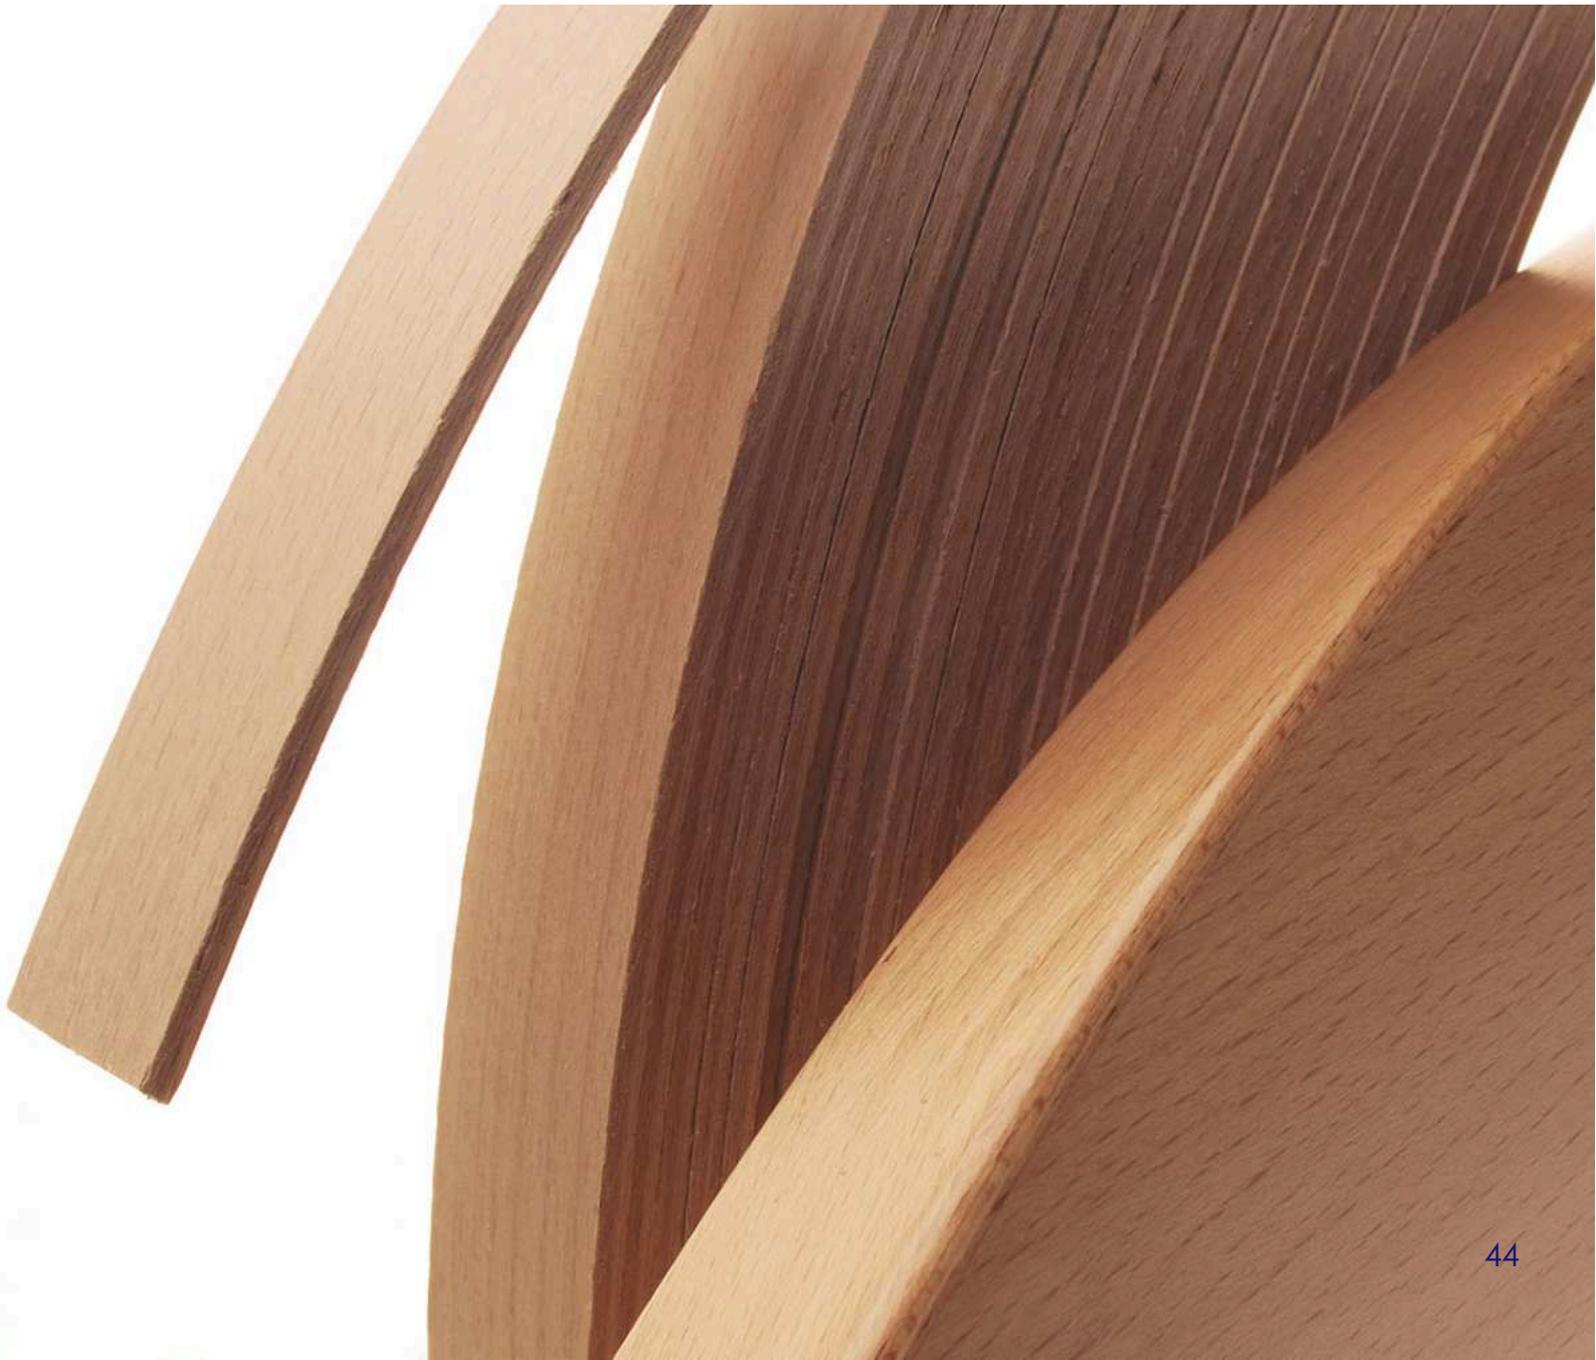

Thick Veneer Edging

Multilayered, Safe, and Flexible. Veneers are laminated in multiple layers using high-performance presses (up to 5 mm thick). Finger-jointed middle layers ensure maximum flexibility.

Product options:

- Thick veneer edgings with custom surface finishes available
- Wide range of standard wood types and dimensions in stock
- Fixed sizes also available: lengths up to 3,100 mm and thicknesses up to 60 mm

End-grain Edging

High Quality Look. Replicates the look of cross-cut timber with visible annual rings. Provides a natural, sawn-wood aesthetic on workpiece edges.

Specifications:

- Thickness: approx. 1.2 mm
- Surface: sanded
- Slat width: variable (45–150 mm)
- Widths: 18–200 mm
- Roll lengths: 50 / 100 m
- Available in various wood species

3D Structured

Design accents for individualist. In addition to standard brushed veneer edges, we offer a range of 3D textured veneer surfaces Available on all standard veneer types – no need for special veneers or complex processing

Available Structures:

- Rough Cut
- Sandblast
- Wave
- Wormhole
- Croco Nero
- Croco

Cross Veneer Edging

Features a transverse grain structure that enhances visual appeal and serves as a striking design element for architects and furniture makers. Available in various wood types, widths, and customizable thicknesses.

- Transverse veneer structure for a unique look
- Enhances edges as a design feature
- Available in different wood types and widths
- Standard thicknesses: approx. 0.5 mm, 0.8/0.9 mm
- Other thicknesses available on request

Wrapping Veneer

Sanded with reinforced backs for flexibility and durability. Customized with various fleece thicknesses and glues, they ensure effective processing. Fully glued finger joints enhance strength and finish, while advanced Hydro-UV lacquering supports tight-radius wrapping and eco-friendly production.

Key Features:

- Reinforced backs for high flexibility
- Custom fleece thicknesses and glues
- Hydro-UV lacquering for tight-radius profile wrapping
- Eco-friendly, high-performance finishing systems
- Colour and gloss matched to your samples

Internal Doors

Our interior doors combine exceptional design with practicality, offering a range of styles from classic to contemporary. They are made from high-quality materials, ensuring both durability and aesthetic appeal.

Whether you need a solution for residential or commercial spaces, our doors deliver versatile options that seamlessly blend into any interior while providing superior functionality.

Fronts

Lacquered Panel Door

Designed to enhance both style and functionality, our collection offers a perfect balance of modern aesthetics and durability. These doors are a timeless choice for any space.

- A perfect blend of modern design and exceptional craftsmanship.
- Minimalist decorations that add an elegant and sophisticated character.
- Lacquered surface with a flawlessly smooth finish.
- Easy to clean and maintain.
- High durability and resistance to damage.
- A long-term investment for any environment.

Veneer Framed Door

Classic Elegance, Timeless Appeal. An ideal choice for those who value enduring style over fleeting trends. These doors combine traditional charm with robust construction, offering both beauty and long-lasting performance.

- Framed construction ensures stability and enhanced resistance to damage.
- Interior fillings include a variety of options such as coffers, glazing, HDF panels, and mirrors.
- A wide selection of models to suit diverse interior styles and preferences.
- Offers both visual appeal and the comfort of tailored choice.
- Designed to meet individual needs with precision and refined taste

Veneer Panel Door

Versatile Design for Every Interior. These doors offer universal appeal, making them a perfect fit for any room - from kitchens and living areas to bathrooms.

- Ideal for creating a consistent design throughout the entire home.
- Covered in durable, scratch-resistant veneers for lasting quality.
- Wide variety of designs that reflect current styles and authentically mimic wood textures.
- Available in classic tones like beige and brown, as well as modern shades of white, grey, and anthracite.
- Rich color palette makes it easy to match with any interior concept.

Technical Panel Door

High-Performance Doors for Demanding Spaces. Designed for specialized applications, these doors combine certified quality with functional excellence. Their reliability is backed by numerous certificates and approvals, ensuring confidence in every installation.

- Depending on the collection, doors offer:
 - Effective sound insulation, Fire protection, Enhanced burglary resistance
- Ideal for public buildings, offices, hotels, and restaurants
- Combines high functionality with modern aesthetics
- A smart and secure solution for both commercial & high-traffic environments

Doors Aligned with the Wall

A sleek and versatile door solution designed for modern interiors. Whether you prefer a subtle, integrated look or a bold design statement, this door offers both discretion and creativity in one.

- Seamless design with concealed hinges, no visible frames, and a flush door leaf
- Blends into the wall for a clean, minimalist aesthetic
- Creates a refined, almost hidden entrance—revealed only by the handle's outline
- Can double as a bold statement piece with a striking color
- A unique blend of subtlety and expression, tailored for contemporary spaces

Sliding Door

High-Performance Doors for Demanding Spaces. Designed for specialized applications, these doors combine certified quality with functional excellence. Their reliability is backed by numerous certificates and approvals, ensuring confidence in every installation.

- Depending on the collection, doors offer:
 - Effective sound insulation, Fire protection, Enhanced burglary resistance
- Ideal for public buildings, offices, hotels, and restaurants
- Combines high functionality with modern aesthetics
- A smart and secure solution for both commercial & high-traffic environments

Fronts

We offer a diverse range of furniture door fronts, each designed to enhance both the functionality and aesthetics of your interior spaces, while perfectly matching and complementing your existing furniture.

These fronts not only elevate the design but also ensure seamless integration with your home's style, making them an ideal choice for any interior project.

These fronts not only elevate the design but also ensure seamless integration with your home's style, making them an ideal choice for any interior project.
