## History

GTV Global was founded on years of expertise in export, international trade, and strong global partnerships. Our extensive network and successful collaborations have positioned us as a trusted partner for businesses seeking to expand into new markets.

Our team brings a diverse skill set, with expertise in international business, engineering, law, trade, procurement, and professional distribution. Additionally, our deep understanding of regional markets and linguistic proficiency ensures seamless communication and effective business operations across borders.

- 1998** We started the main trading division from Germany. The target was specifying and selling German produced building materials like polyurethane sandwich panels and doors for cold stores to the GCC-Region, mainly Saudi-Arabia, Kuwait and the UAE.
- 2004** The consulting division has been founded after several inquiries of German companies for market studies and the search of potential distributors. The target was to sell German produced building materials to the GCC-Region as well as offering consulting services for German companies who planned to enter the GCC market.

- 2006** After studying the situation of German companies entering the UAE market, the decision has been taken by the management of the trading and the consulting division to start the setup of a Dubai based office.
- 2007** The office in Dubai has been opened, the company started the operation in Dubai under a professional license.
- 2008** The company has been reformed to a general trading activity with the target to support European based companies to enter the UAE.

- 2011** Beside the trading activities, the consulting division has been separated in an independent company acting from Doha, Qatar.
- 2013** The office in the Dubai World Trade Centre has been founded to start an optimized sales & marketing strategy, increasing the efficiency of internationally selected companies.
- 2015** GTV Bedding has been founded and separated as independent division concentrating on UAE and GCC operating 4- and 5-star hotels.

**2017** The guideline has been set to concentrate on global players out of the building material producing categories.

**2018** The new decided and implemented sales & marketing strategy within our team is leading us to great success, the direct connection and specialization between the indoor, outdoor and marketing team gives us the strength to focus and improve the qualities of every sales and marketing related process.

**2020** By beginning of the first quarter we have organized the sales in three independent and specialized product related divisions, which helps us increasing the efficiency, as the leads and project related sales information is directly shared between the responsible sales team members in a very short processing time.

**2022** The main focus within the last two years was the improvement and support of the specification work toward projects, through additional customized events introducing selected product lines to leading international architect firms based in Dubai and Abu Dhabi.

**2023** Our office in Riyadh has started operating this year based on several customer requests and projects in Saudi Arabia, which are planned and specified through architects in the UAE.
